Description

## *Bering Watches by **Nettletons Jewellers***

"When the pure, cool beauty of the Arctic is blended with the simple elegance of Danish design, a new era dawns: it's BERING Time."

Since 2011, BERING has been supporting the animal welfare organisation Polar Bears International, which is dedicated to the conservation of this endangered species. Every year the organisation works with biologists and researchers to raise awareness about the protection of polar bears. BERING also accepts social responsibility, and each year it donates a significant sum to PBI. For each Charity watch sold, BERING donates 15 US dollars to the animal welfare organisation. Under the motto "time to care", revenues from the sale of the limited-edition, exclusive collections have already generated over 220,000 US dollars. This money is being used for various PBI projects.
